

A portrait of Janet Feldkamp, a woman with short, styled blonde hair, wearing a blue top and small earrings. She is smiling slightly and looking towards the camera.

My clients provide **health care** at a deep, clinical level. So I get in-depth with them.

I'm not a typical lawyer. My practice is not a typical practice. I focus on representing post-acute health care providers because I've been one—and still am.

My experience as an RN, nursing home administrator, state regulator, director of nursing, and VP in a multistate, multifacility company gives me a perspective and a depth of understanding that lets me be more than a legal resource.

I'm a fellow clinician, with compassion for patients and families. I'm a fellow businessperson, determined to help facilities meet their operating goals.

I'm a trusted advisor, providing guidance, raising risk awareness, offering options, finding solutions.

Above all, I'm still a caregiver.

Caring about providers and the patients they serve.

Giving sound legal counsel for their protection and well-being.

I'm **JANET FELDKAMP**.

I'm on your team.
