

Complimentary Data Security and Privacy Consult

Since the onset of COVID-19 earlier this year, we know that cash flow has been uncertain for many businesses and also that legal issues have not gone away. Data security and privacy breaches continue to be on the rise as hackers take advantage of COVID-19. That's why Benesch is offering our clients a complimentary data security and privacy consult, up to 30 minutes in length, with an attorney on our Global Data Security & Privacy Team.

Whether you would like to discuss concerns related to COVID-19 and health and employee privacy, compliance with CCPA or GDPR, possible litigation, or you just wish to have a general discussion about responding to increased threats and mitigating the risk to your business of a devastating security breach, we are making our Global Data Security & Privacy Team available to you at no cost.

To schedule a consult, [**please click here and complete the registration form**](#). Please indicate if there are particular dates and/or times that are best for you to speak with an attorney on our Global Data Security & Privacy Team. If you are not currently a Benesch client, you will need to complete our client intake process to participate. You will be contacted within 48 hours of submitting the form.
