I can help you **Solve** your most pressing **labor and employment issue.**

And correct the bigger issues that created it.
It's more than doing what the law requires.
More than addressing potential risks.
It's about the work environment you build
and the relationships you foster.
Person to person. Every day.
I work with company leaders in all sectors
of business and industry.
They call me for practical answers and
level-headed counsel.
For the insight to take decisive action
and the foresight to manage the big picture.

I'm **JOHANNA FABRIZIO PARKER.**
I'm on your team.
