

WE'RE GROWING FOR IT

Every day, businesses count on Benesch's Labor & Employment Practice Group to help them manage their most essential resource—people. That starts by ensuring we have deep resources on our own team.

We've boosted our bench strength by adding 10 attorneys in the last year. Led by newly appointed Chair W. Eric Baisden and Vice Chair Johanna Fabrizio Parker, our diverse, experienced group serves the HR and employee benefits needs of organizations in various sectors of business, industry and government nationwide.

We're growing to stay on top of our clients' expectations, and ahead of their needs.

How can our people help your people?
