Artificial Intelligence in Legal Practice: Key Considerations for Future Lawyers | Megan C. Parker

APRIL 10, 2024

Speakers: Megan C. Parker

Artificial Intelligence is a hot topic among lawyers, judges, and legal professionals, especially as clients are beginning to demand its use and new programs are being developed to streamline legal tasks. Future lawyers should be aware of the key considerations regarding the ethical duties impacted by artificial intelligence and the limitations / opportunities this new technology presents for use in practice.
