Benchmarking and Best Practices Conference: Authentic Influence

OCTOBER 1-3, 2025

The Benchmarking and Best Practices Conference will bring together hundreds of plastics professionals to educate and empower them with practical strategies, real-world case studies and actionable insights. With a conference set up to explore the forefront of manufacturing technology and its impact on plastics manufacturing businesses, those in attendance will have a platform for sharing knowledge, fostering collaboration and driving the future of manufacturing.

This conference is designed to showcase the latest breakthroughs in manufacturing processes, automation, industry data, robotics, supply chain management, leadership strategies and more
