

SPEAKING ENGAGEMENT

California, AB5, and the Future of the Independent Contractor Model | Marc S. Blubaugh

Intermodal Association of North America

JULY 19, 2022

Speakers: [Marc S. Blubaugh](#)

Overview of the current state of the independent contractor model in California as AB5 goes into effect. How did we get to where we are today? What are the alternate business models companies can consider to be compliant with the law? What should companies be watching for as legal and other actions related to AB5 continue to unfold? There are many questions still to be answered about the implementation of AB5 in California. This session will provide you with a solid grounding to consider your options.
