In today's rapidly evolving logistics landscape, collaboration is essential to navigating complexity and driving progress. The 2026 CIFFA Conference, Forward Thinking: Collaboration in a Complex World, brings together Canada's logistics and supply chain leadership for two days of insight, connection, and industry influence. This conference promises to be a significant gathering of industry professionals, thought leaders, and innovators, all focused on shaping the future of the supply chain in Canada. This is an event that will bring together key stakeholders from all corners of the supply chain ecosystem.
