

FIRM EVENTS

Cyber Security: Past, Present and Future

MAY 16, 2013

Speakers: [Michael D. Stovsky](#)

Cleveland, OH
US

Please join Benesch, along with the U.S. Attorney for the Northern District of Ohio and an expert panel, for a presentation on what the FBI has identified as a leading threat to our national security: Cyber Crime. We have assembled some of the most knowledgeable professionals in this field to assist you in identifying threat factors and necessary safeguards. Whether you are concerned about the security of financial, proprietary, intellectual, medical or personal information, this seminar will be of great interest to you, your company, your customers and the public.

Keynote Speaker

STEVE DETTELBACH, U.S. Attorney for the Northern District of Ohio

Panelists

ROBERT C. BURCH, Chief Information Security Officer, Key Enterprise Technology, KeyCorp

SPECIAL AGENT MICHAEL BRIAN, Cleveland FBI, Cyber Intrusion Squad

SHANE SIMS, Director, Advisory-Forensics Practice with emphasis in cybercrime and national security, PricewaterhouseCoopers LLP

[MICHAEL D. STOVSKY](#), Partner and Chair, Innovations, Information Technology & Intellectual Property (3iP) Practice Group, Benesch
