SPEAKING ENGAGEMENT

ESG: Managing Environmental, Sustainability and Governance Demands for Successful Leasing and Development | Kathleen M. Vlasek

ICSC+U.S. Law

OCTOBER 25-27, 2023

Speakers: Kathleen M. Vlasek

Phoenix, AZ

Developers, landlords, tenants and investors throughout the retail sector are increasingly focusing on ESG (environmental, social, and governance) issues in their current and future business operations. In this engaging peer-to-peer session, participants will discuss the impact of ESG initiatives as they manifest in the retail environment, such as EV charging availability, green energy, carbon footprints, and more. We'll examine the various drivers behind ESG decision-making, identifying the tension points in implementation, and how to future-proof leases to allow for growth and change with respect to ESG.
