I Can't Get Resin: Defenses to Contract Enforcement | H. Alan Rothenbuecher

Manufacturer's Association for Plastic Processors - The Resin Crisis: Information Every Plastics Processing Executive Must Know

MARCH 2, 2021

Speakers: [H. Alan Rothenbuecher](#)

The global resin market is in a state of chaos. Plastics processors all over the country are seeing severe resin shortages and staggering price increases.

To help processing executives better understand how to plan for the future, experts from AMCO Polymers will explain the root causes of the current state of the resin market and the impact on resin suppliers and processors. Alan Rothenbuecher from Benesch Law will also provide insight into force majeure and allocation strategies the resin suppliers are currently using to mitigate the impact. Lastly, AMCO and Benesch will provide actionable steps processors can take to better insulate and reduce the impact this crisis has on their businesses.
