

SPEAKING ENGAGEMENT

Managing Risk in Domestic and International Contracts | Jonathon R. Todd

January ASCM/APICS Akron Ohio Chapter Meeting

JANUARY 17, 2023

Speakers: [Jonathan R. Todd](#)

Global supply chains are charging ahead despite a global pandemic and war in Europe. During the height of the pandemic our speaker delivered a presentation titled "Managing Contract Risks in the COVID-19 World and Beyond" on May 27, 2020. This presentation will refresh attendees on those learnings from the pandemic and take the conversation a step further to the present. Today, domestic and international supply chains are facing a different risk profile than was the case just a few years ago and certainly before the pandemic. Fundamental legal concepts impacting contract risk will be discussed including Force Majeure, Indemnity, Export Controls and Economic Sanctions, and Choice of Law / Venue.
