SPEAKING ENGAGEMENT

TCA Offers Workshop Series on Technology Issues | Michael D. Stovsky

Truckload Carriers Association

MARCH 11, 2021

Speakers: Michael D. Stovsky

The Truckload Carriers Association will present several workshops to explore technology considerations for independent contractors, transportation technology procurement, and data use in litigation.

The following workshop focusing on transportation technology, procurement, and litigation are included with the purchase of this series:

- March 23 at 1 p.m. ET - Transportation Technology Procurement.

Transportation Technology Procurement

Facilitated by Mike Stovsky, this workshop will provide an overview of critical issues and risks, and how to handle and mitigate these issues within the process of negotiating technology procurement agreements with key vendors.
