

SPEAKING ENGAGEMENT

The Debt Fund Perspective: Capital, Risk and Market Dynamics | Michael J. Barrie

Trigild Annual Lender Conference

OCTOBER 6, 2026

Speakers: [Michael J. Barrie](#)

Dana Point, CA

Private credit and debt funds have fundamentally changed the marketplace. They have stepped into the financing gap left by traditional banks, become a major source of rescue capital, recapitalizations, bridge financing and loan acquisitions, and, in many circumstances, they have become the primary drivers of how distress is resolved. This panel will largely focus on whether debt funds are simply adapting to the market or actively reshaping it.
