

Maritime Reporter & Engineering News Publishes J. Philip Nester's Analysis on Vessel Diversions in Ocean Shipping

NOVEMBER 25, 2025

Authors: [J. Philip Nester](#)

[J. Philip Nester](#), Senior Managing Associate in the firm's Transportation & Logistics Practice Group, authored a featured article in the October 2025 issue of *Maritime Reporter & Engineering News* titled "Vessel Diversions in Ocean Shipping: Overview and Implications."

Nester's piece examines the rising frequency of vessel diversions, the contractual and commercial impacts on shippers and carriers, and practical steps companies can take to manage risk and strengthen their position when disruptions occur.
