Todd, Chandler, Gomez and MacCallum Published Article in Air Cargo Focus

JANUARY 1, 2025

Authors: Jonathan R. Todd, Kristopher J. Chandler, Megan K. MacCallum

Benesch Partners Jonathan Todd and Kristopher Chandler, and Associates Vanessa Gomez and Megan MacCallum have published an article in the Fall/Winter 2024-2025 issue of *Air Cargo Focus*. Their insightful article, **"Legal Perspective: AI in the Supply Chain Under Government Focus,"** delves into the evolving role of artificial intelligence (AI) in supply chain management and the increasing scrutiny from federal agencies.

The U.S. Department of Transportation (DOT) has been actively seeking input from industry stakeholders regarding the safe and responsible implementation of AI in the transportation sector. The DOT's Advanced Research Projects Agency-Infrastructure is among several federal entities, alongside the White House, that are intensifying their focus on the opportunities and risks AI presents.
