Benesch Named to Bloomberg Law's Inaugural Leading Law Firms List

JULY 15, 2025

Benesch is pleased to announce that it has been named to Bloomberg Law's inaugural list of 2025 Leading Law Firms. This debut program recognizes firms across the country that are excelling across key performance areas and setting new standards in today's evolving legal market.

Benesch ranked #17 overall among firms below $500 million in revenue and earned notable recognition in two core categories: #7 for financial strength and #6 for talent. These rankings reflect the firm's continued financial growth-reporting $347.8 million in revenue and $1.40 million in profits per partner in 2024-as well as the ongoing success of Benesch's lateral recruitment strategy, which has expanded the firm's capabilities and deepened its bench across key practices and markets.

The Bloomberg Law rankings are based on an analysis of nearly 100 firms across four weighted categories: financial strength, talent, growth, and business and innovation. The program offers a comprehensive view of firm performance, introducing new benchmarks that incorporate both traditional metrics and forward-looking indicators of success.

"Bloomberg Law is proud to honor trailblazing organizations in our debut of Leading Law Firms," said Cesca Antonelli, Editor-in-Chief of Bloomberg Industry Group. "This inaugural group demonstrates the importance of embracing data and technology to spark innovation in their field."
