Benesch Partner Jonathan Todd Discusses the Business Case for AI in Trucking

MARCH 4, 2025

Jonathan Todd Benesch Vice Chair of the Transportation & Logistics Practice Group, was recently interviewed for an article on *The Inside Lane* about the growing role of AI in the trucking industry. As AI continues to dominate conversations in tech, Todd provided valuable insights on how trucking companies can transition from the hype surrounding AI to practical, cost-effective solutions. He also provided crucial guidance on best practices and common pitfalls when integrating AI into trucking operations.

For more on Todd's expert advice, check out the full article [here](#).
