Benesch Partner Mark Silberman Quoted in Modern Healthcare on Medicare DSH Ruling's Impact on Safety-Net Hospitals

AUGUST 5, 2026

Mark Silberman, Vice Chair of Benesch's Healthcare Practice Group, was recently quoted in the Modern Healthcare article, "*Hospitals may get millions after Medicare DSH ruling*". The article examines a recent federal court ruling that vacated a 2023 regulation affecting Medicare disproportionate-share hospital (DSH) payment calculations and the potential financial impact on safety-net hospitals.

Silberman noted that the decision could help hospitals offset anticipated Medicaid funding reductions, stating, "It is a very difficult time for DSH hospitals. This decision could help them fight the onslaught that may be coming."
