Benesch Partner Seth Kleinman was quoted in Law360 Bankruptcy Authority in an article examining how internal disputes and stakeholders conflict derailed the Chapter 11 proceedings of Label Co. Multi-Color.

The article, "***How Label Co. Multi-Color's Ch. 11 Got Mired In Conflict***," explores the breakdowns between the debtor, creditors, and other parties that complicated the restructuring process and prolonged the case.

In the article, Kleinman commented:

"The disgruntled creditors are saying they didn't get the opportunity to participate in the equity backstop and the other equity-rights economics, while the existing equity holder did," Kleinman observed. "That puts it squarely in ConvergeOne land."
