Benesch Partners Mark Keaney and David Hudson Featured in San Francisco Business Times on Powered Land and Data Center Development

NOVEMBER 13, 2026

Authors: Mark T. Keaney, David Hudson

Featured Industries: Powered Land & Data Centers

Mark Keaney, a partner in Benesch's Litigation Practice Group, and David Hudson, a partner in Benesch's Real Estate Practice Group, recently authored an article for the *San Francisco Business Times* examining the role of powered land in data center development and the growing importance of access to reliable power when evaluating potential sites.

In the article, Mark and David discuss key energy and real estate considerations affecting data center projects, including how power availability can influence site selection, development timelines and the overall viability of a project. They also explore the intersection of energy infrastructure and real estate as developers navigate increasing demand for data center capacity.
