Benesch's Transportation & Logistics Group Featured in Crain's Executive Insights on Global Supply Chain Transformation

DECEMBER 3, 2025

Authors: Marc S. Blubaugh, Jonathan R. Todd, Eric L. Zalud

Benesch's nationally recognized Transportation & Logistics Practice Group is prominently featured in the latest Crain's Executive Insights roundtable, **"Navigating Global Supply Chain Transformation."** The in-depth discussion brings together leaders from Benesch and in-house counsel and business leaders from global logistics providers including SEKO, Yusen Logistics (Americas), AIT Worldwide Logistics and Echo Global Logistics to unpack the unprecedented volatility, regulatory whiplash and technology disruption reshaping supply chains today.

The feature spotlights Benesch Partners **Marc Blubaugh**, **Eric Zalud** and **Jonathan Todd** as they break down how organizations are adapting to rapid tariff shifts, geopolitical pressures, e-commerce demands, workforce needs and the accelerating influence of AI across modern logistics operations. They also share how companies are building resilience, strengthening compliance and redefining provider-customer relationships in a year marked by unprecedented change.
