JD Supra's Readers' Choice Awards recognize the most widely read and engaged authors across 33 key topics spanning multiple industries. These topics are selected based on their timeliness and ongoing importance to businesses, policymakers and legal professionals. Each year, only ten authors per category and one firm are recognized for maintaining consistently high readership and engagement. Out of more than 70,000 authors who publish on JD Supra, just 344 were selected for this distinction.
