

Matt Tader Joins Benesch as Chief Information Officer to Drive IT Strategy

SEPTEMBER 18, 2024

As part of the firm's continued growth strategy and commitment to driving innovation, Benesch is pleased to welcome Chief Information Officer (CIO) Matt Tader to the firm. Matt is a seasoned technology executive with a proven track record of aligning IT strategies with business objectives to achieve measurable results.

Prior to joining Benesch, Matt spent seven years at Ice Miller, where he played a pivotal role in modernizing the firm's IT systems and enhancing cybersecurity measures. His diverse experience in leading technology transformations across law firms and other industries makes him adept at optimizing processes, developing talent and implementing innovative solutions that enhance operational efficiency.

Known for his strategic planning, technology modernization, cross-departmental collaboration and ability to navigate complex challenges, Matt ensures the seamless integration of technology with business goals. He builds high-performing teams and fosters strong partnerships, with a focus on continuous improvement. His leadership promotes a culture of collaboration, ensuring that technology serves as a competitive advantage.

"I am thrilled to join Benesch and contribute to the firm's continued success and growth. Technology plays a critical role in driving innovation, efficiency and client service in the legal industry, and I look forward to working with the talented team at Benesch to align our IT strategy with the firm's overall vision," said Matt.

Benesch Managing Partner Gregg Eisenberg added, "We are excited to have Matt join our team. His impressive background in technology and business leadership, combined with his skill in driving strategic change and delivering results, make him a valuable addition to the firm. Matt's industry knowledge and team development experience, along with his ability to align technology with business goals, will be instrumental as we continue to advance our objectives and technological capabilities while helping to ensure we continue to deliver top-tier solutions and support to our clients."
