### Overview

**Melissa Grim focuses her practice on employee benefits and executive compensation-related matters. She has extensive experience counseling private equity funds and other public and private companies on benefits, ERISA, and executive compensation issues (including Code Section 409A and 280G issues) that arise in mergers and acquisitions, divestitures, carve-outs, restructuring, and ESOP transactions.**

Melissa regularly advises clients on the design, structuring, implementation, and ongoing administration and compliance for qualified and nonqualified retirement plans, health and welfare plans, equity and long-term incentive plans, and other benefit and compensation arrangements. She also represents clients in handling and negotiating inquiries, audits, investigations and assessments, advisory or other ruling requests, and voluntary compliance correction matters with government agencies, such as the Internal Revenue Service, the U.S. Department of Labor and the Pension Benefit Guaranty Corporation.

In the context of corporate transactions, her approach is centered around creating value for the client in each phase of the deal, including a unique focus on helping acquisitive companies and private equity funds and their portfolio companies navigate the human capital and people operations aspects of post-deal transition and integration. Melissa regularly counsels clients on creating value creation plans, developing acquisition “playbooks” to drive efficiency and mitigate risk in add-on and tuck-in transactions, and designing policies and procedures, as well as benefit and compensation plans and programs, that incentivize performance and incorporate best practices, industry trends, changes in the legal landscape, and the company’s or private equity fund’s goals and strategic initiatives.
